15. N.S., Inc., owned by an individual identified herein by the initials "B.C.," is a manufacturing company incorporated in Texas, but whose operations are located in Suzhou, China. N.S., Inc. assisted customers, including Defendants **NORTON** and **KELLY**, in obtaining Chinese manufactured parts at competitive prices.

The Process

16. The Department of Defense (DOD), through its various agencies, such as the DLA Land & Maritime (L&M), located in Columbus, Ohio, within the Southern District of Ohio, contracted with private individuals and companies for the supply of various items for component parts and end products to be used by members of the United States military. The DOD required that all parts purchased be in conformity with the required government specifications.

17. Generally, the process to contract with the DOD worked as follows: the DOD issued "solicitations" electronically, which DOD contractors then responded to with quotes, also electronically; based on quotes received, the DOD issued Purchase Orders to a specific contractor for specific required parts. If a contractor bid "without exception," it meant that the "exact product" would be furnished under the contract. The DLA L&M solicitations and Purchase Orders listed the DOD requirements (drawings or military and/or commercial specifications) for each part. The contractor was required to have a quality control system in place to ensure the parts they supplied to the DOD were in accordance with all DOD drawings and specifications, prior to shipping the parts to the DOD. Once shipped, the contractor submitted an invoice to the DOD electronically, representing that the parts shipped met the required government specifications. Upon receiving an invoice, the DOD, through the Defense Finance and Accounting Service (DFAS), also located in Columbus, Ohio, in the Southern District of Ohio, issued electronic payment to the supplying contractor and retained a voucher as a record of the payment.

18. DOD contractors must be registered in the Central Contractor Registration (CCR), agree to receive payments electronically, and obtain a Commercial and Government Entity (CAGE) code. The CAGE code is a five-character identification number used extensively within the federal government, and assigned by DLA. The CAGE code is used to support a variety of

mechanized systems throughout the government and provides a standardized method of identifying a given contractor's facility, at a specific location.

19. Certificates of Conformance (COCs) certify that on a particular date, a contractor furnished the supplies or services called for by a particular contract via an identified method of shipping and in accordance with all applicable requirements. The certificates further certify that the supplies or services are of the quality specified and conform in all respects with the contract requirements, including specification, drawings, preservation, packaging, packing, marking requirements, and physical item identification (part number), and are in the quantity shown on the certificate or an attached acceptance document. In some instances, DOD requires that contractors submit COCs with the parts supplied.

20. The various parts supplied as part of the scheme to defraud, as alleged below, did not meet the specified military requirements and specifications as listed in the Purchase Orders. The parts involved were designed to be utilized on military weapon systems to include aircraft, vessels, vehicles, and Nuclear Reactor programs. Many of the parts were considered critical application items. A critical application item was an item essential to weapon system performance or operation, or the preservation of life or safety of operating personnel, as determined by military services.

COUNT 1
(Conspiracy to Commit Wire Fraud)

21. The factual allegations set forth in Paragraphs 1 through 20 of Introduction Section of this Indictment are re-alleged and fully incorporated by reference herein.

22. Beginning at least as early as 2010 and continuing through in or about 2013, in the Southern District of Ohio and elsewhere, the defendants,

DANIEL EMERSON NORTON, and

TIMOTHY M. KELLY

did knowingly and intentionally conspire and agree with others known and unknown to the grand jury to commit wire fraud, that is, to devise and intend to devise a scheme to defraud the United States Department of Defense and for obtaining money and property from the DOD by means of materially false and fraudulent pretenses, representations and promises, and material omissions, and for the purpose of executing the scheme, using wire communications in interstate commerce, in violation of 18 U.S.C. § 1343.

The Object of the Conspiracy

23. The object of the conspiracy was for the defendants to unlawfully enrich themselves by providing the Department of Defense and the United States Military nonconforming parts in response to at least 130 Purchase Orders awarded to contractors with active CAGE Codes at the defendants' request. As a result of the defendants' conspiracy to defraud and to fraudulently obtain money belonging to the DOD, the defendants illegally obtained approximately \$2,137,363.18.

Manner and Means of the Conspiracy

24. The manner and means by which the defendants sought to accomplish the objective of the conspiracy include, but are not limited to, the following:

a. Defendant **NORTON** recruited individuals who either already had companies, or were willing to start companies, for the purpose of bidding on solicitations and contracting with the DOD to provide parts for the United States Military under the guise of being manufacturers.

b. Defendant **NORTON** assisted each newly created company with obtaining the required CAGE code to contract with the DOD.

c. Defendant **NORTON** emailed these contractors, identified above as Companies # 1 through # 9, to provide instruction on what price and delivery timeframe to quote for certain DOD solicitations. Often, Defendant **NORTON** would direct multiple companies to bid on the same solicitation, within pennies of each other, in an effort to ensure that one of the companies would be awarded the Purchase Order. Quotes were submitted electronically to the DOD by Companies #1 through #9.

d. When one of the companies was awarded a purchase order, Defendants **NORTON** and **KELLY** instructed the contractor to send the purchase order to Emerson Company, which would purchase and ship the part directly to the DOD.

e. Defendants **NORTON** and **KELLY** regularly communicated by email with the manufacturers and each other regarding quotes, specifications and other matters pertaining to the production of parts.

f. Defendants **NORTON** and **KELLY** often ordered a sample size of the correct part from a manufacturer in the United States and then arranged for the samples to be sent to China for production of the lot required for the purchase order.

g. Defendants **NORTON** and **KELLY** purchased parts identified in this indictment from, and on occasion traveled to, manufacturers in China, even though a large number of the purchase orders specified that parts be manufactured or obtained pursuant to the Buy American Act.

h. Defendants **NORTON** and **KELLY** also authorized the use of substituted materials in manufacturing some of the parts sold to the DOD, without notifying the DOD that they were altering the terms of the contracts nor seeking permission to do so.

i. Defendants **NORTON** and **KELLY** also provided the DOD with parts that had dimensional defects, incorrect or missing markings, zinc plating in lieu of cadmium plating, incorrect finishes, improper shapes or styles, mislabeled packaging, or poor workmanship.

j. Once Emerson Company received the part, Defendant **KELLY** oversaw the packaging and shipping of the part to the DOD.

k. Defendants **NORTON** and **KELLY** did not send the part to the contractor who won the contract prior to Emerson Company shipping it to the DOD. Nevertheless, Defendants **NORTON** and **KELLY** would routinely instruct the contractor to sign a Certificate of Conformance (COC), initially prepared by Defendant **KELLY**, indicating the part had been inspected and met DOD specifications.

l. Despite directing the contractor to sign the COCs, Defendants **NORTON** and **KELLY** submitted nonconforming parts for the purchase orders identified below and others.

m. Once shipped, Defendant **KELLY** contacted the contractor who held the purchase order, usually through email, and instructed the owner to submit an invoice to the DOD electronically through the DFAS in Columbus, Ohio, representing that the parts have been shipped and met the required specifications.

n. After DFAS issued the electronic payment for the invoice, Emerson Company invoiced the contractor for the full amount paid by DFAS, less a 10% discount. Therefore, 90% of the funds received by the contractors from DFAS on each contract were paid to Emerson Company, per the arrangement made with Defendants **NORTON** and **KELLY**.

All in violation of Title 18, United States Code, Section 1343.

30. Title 41, United States Code, Section 8302, which is part of the Buy American Act, requires generally that American materials be acquired for public use. In other words, the Buy American Act provides that the federal government give preference to products made in the United States when making certain purchases.

31. From on or about May 18 2011, to on or about August 31, 2012, in the Southern District of Ohio and elsewhere, the defendants,

**DANIEL EMERSON NORTON, and
TIMOTHY M. KELLY**

did willfully and knowingly falsify, conceal, and cover up by trick, scheme, and device a material fact in a matter within the jurisdiction of the executive branch of the Government of the United States, namely that the defendants, through Emerson Company, supplied parts made in China to the DOD as part of PO ending 0363, while also instructing Company # 5 to represent that the parts would be provided in compliance with the federal Buy American requirements.

Manner and Means

32. The manner and means by which Defendants **DANIEL EMERSON NORTON** and **TIMOTHY M. KELLY** falsified, concealed and covered up material facts from the United States was essentially as follows:

a. Defendant **NORTON** instructed the owner of Company #5 to bid on Request for Quotation #SPM7L2-11-A-1401, subject to I25B01 252.225-7001, *BUY AMERICAN ACT AND BALANCE OF PAYMENTS PROGRAM* (Jan 2009) DFARS.

c. Despite the fact that PO ending #0363 required compliance with Buy American requirements, Defendants **NORTON** and **KELLY** ordered the requested parts from N.S. Inc. in China, which parts, the defendants then provided to the DOD.

d. To conceal the country of origin of the parts, Defendants **NORTON** and **KELLY** directed that the parts be shipped to Emerson Company in California for repackaging and labeling before shipment to the DOD.

e. Once shipped, Defendant **KELLY** contacted Company # 5 and instructed the owner to submit an invoice to the DOD electronically through the DFAS in Columbus, Ohio, representing that the parts have been shipped and met the required specifications, including Buy American.
